

## Registrar & Registrar with Camera

Managing site access means more than just keeping logs—it's about real-time accountability. The SafeSite Registrar automates workforce tracking, ensuring only authorized personnel enter secure areas.

- **Registrar** - Digital check-in system that captures entry and exit logs, ensuring compliance with OSHA, job site, and corporate safety regulations.
- **Registrar with Camera** - Adds visual verification, reducing credential sharing, false check-ins, and unauthorized access.

Managing site access goes beyond mere record-keeping—it's about ensuring real-time accountability. The SafeSite Registrar automates workforce tracking, providing your data precisely when you need it

An easy-to-use digital check-in system that records entry and exit, creating logs to ensure compliance with job site requirements and corporate safety regulations.
